

## HOTEL ROSARIO DEL LAGO

Introduction Welcome to Copacabana, the town that owes its name to the Aymara words "Kota Kawana" - "The Lookout Point for the Lake" where the views from the bay of Lake Titicaca abound with extraordinary colors that evoke an overwhelming sensation of calm. Copacabana is a pilgrimage center for the people of Bolivia and the South of Peru who come to the Sanctuary of the Virgin of the Candelaria to show their devotion. It is also the crossroads of the tourist routes between Cusco and La Paz for visiting pre-Inca ruins and it is also the starting point for visits to the Island of the Sun, which, according to tradition was the birthplace of the Inca Empire. The Hotel Rosario del Lago wants to accompany you on this adventure with a warm, cozy environment and exceptional service on the part of its personnel within the hotel, its restaurant and its travel agency Turibus. The hotel is situated in a very privileged location overlooking the bay, an ideal setting for enjoying the views of the lake and the incomparable sunsets. The Hotel Rosario del Lago offers a unique combination of hospitality, local charm and colonial architecture which respects the surroundings and combines harmoniously with the landscape and the local architecture.
